PEER plays catchy alternative rock with a raw edge and pulls inspiration from bands like Nothing But Thieves and Arctic Monkeys. Shortly after the release of their debut EP, PEER played international shows in the UK and Asia. After releasing their first album, the band kicked-off their first headline clubtour in a sold out Paradiso Amsterdam.

The EP ‘WHEN THE LIGHTS GO DOWN’ was released last year to raving reviews and lots of airplay. The EP also caused a further growth in their dedicated fanbase.

Their singles ‘LOST IN LIGHT’ and ‘SHOW ME LOVE’ saw the band’s audience grow even further and gave them the opportunity to tour with Belgian singer Pommeliën Thijs.

PEER has recently released their newest EP ‘ARE YOU EVEN LISTENING?’. Regarding a song on the EP (‘I WANT IT’), daMusic wrote: “With their new single, PEER proves why they are the perfect act to light up any stage.” They celebrated this new EP with a high-energy show in a filled Kavka, Antwerp.

Songs from their previous EP Mad For It! and album Laughing About It Is Far More Exciting have been used in worldwide car commercials for MINI and Mercedes (The Mercedes commercial featured multiple formula-1 World Champion Lewis Hamilton) as well as the Japanese Netflix-show Terrace House. A song of theirs was also used in sports brand FILA’s commercial.
